Driving licenses A e B

ADDITIONAL INFORMATION

- Conference Seminars
- Course : materials, project design, project approach, parameter and material selection
  - Industrial property: patents and licences
  - Course: Controll management
  - Seminar: Incollaggio delle materie plastiche: tecnologie e applicazioni
  - Seminar: Plastics bonding: tecnology and implementation
  - Plastic materials and lighting
  - Plastic materials for the automotive of the future innovation
  - Automotive sector: Tendency and evolution of the plastic materials
  - Replacing metals with engineering plastics
  - Microcellular molding tecnology ( Mu-cell )
  - Injection moulding tecnology ( Roctool )
  - Heat & Cool tecnology (condizionamento dinamico dello stampo)
  - High performance polymers
  - Moulding costs analysis
  - Polymers compounding.
  - Nanocomposite materials
  - Course: "Boss or leader, employee management"
